

Houston Primary School

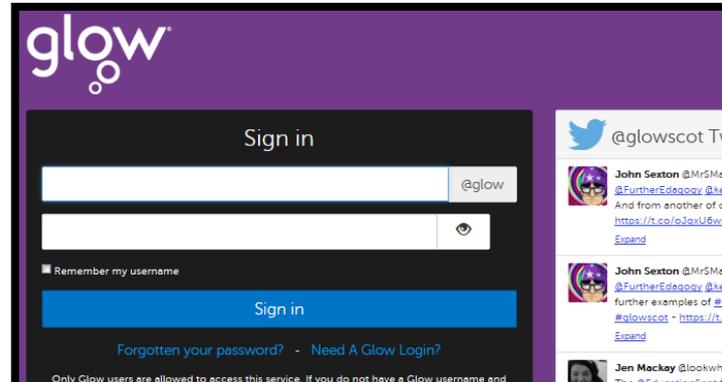

GUIDE TO ONLINE LEARNING FOR PARENTS, CARERS AND PUPILS

If you are unable to find the webpage, please scan the QR code below using your camera.

Glow is a digital environment that supports learning across the curriculum. With a username and password, it gives access to a number of different web based services. Staff and learners can share ideas and resources across classes and the wider community.

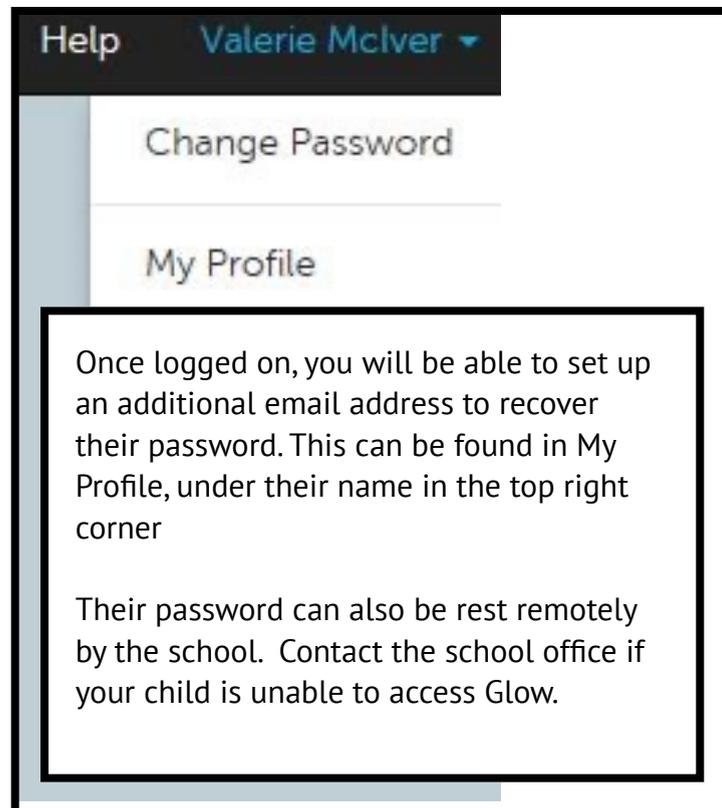

Children from P3-7 have been practicing logging in to Glow using their username and password.

Your child has been issued with their Glow username. It begins with gw

Most children have set their passwords in class.

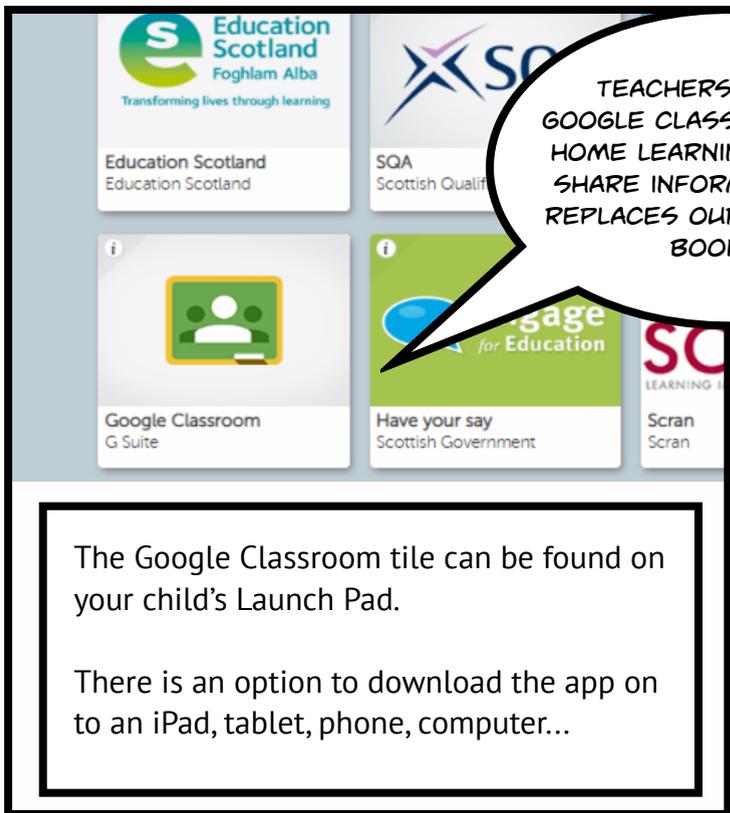

Once logged on, your child should have access to lots of web based resources including the Google Classroom app. They should click on the house icon on the left hand side.

Once logged on, you will be able to set up an additional email address to recover their password. This can be found in My Profile, under their name in the top right corner

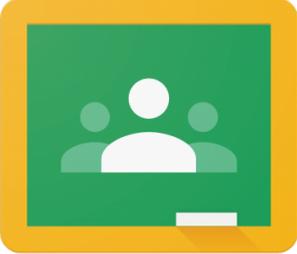

Their password can also be reset remotely by the school. Contact the school office if your child is unable to access Glow.

TEACHERS WILL USE GOOGLE CLASSROOM TO SET HOME LEARNING TASKS AND SHARE INFORMATION. THIS REPLACES OUR 'ORGANISER' BOOKLET.

The Google Classroom tile can be found on your child's Launch Pad.

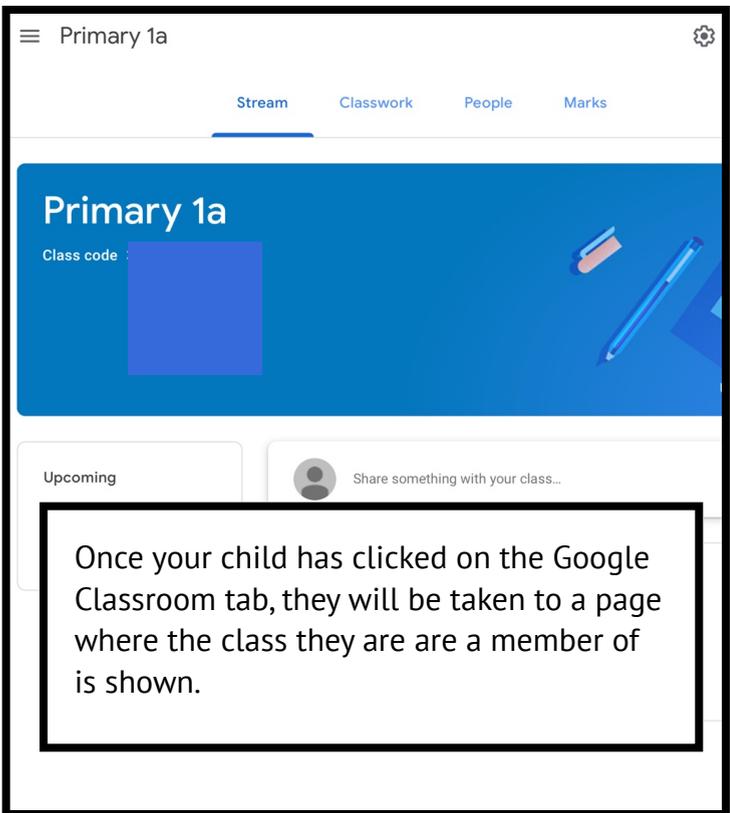

There is an option to download the app on to an iPad, tablet, phone, computer...

Google Classroom

Your child can log in to the Google Classroom app. They may need to use their Glow username followed by

Share something with your class...

Once your child has clicked on the Google Classroom tab, they will be taken to a page where the class they are a member of is shown.

For Troubleshooting advice, please scan the QR code below using your camera.

When your child clicks on their class, they will see a page that looks like this...

The 'Stream' tab shows the latest updates from their class.

The 'Classwork' tab allows access to specific tasks set by the teacher. When your child clicks on 'View your Work', they will be able to access tasks set by the teacher.

Reading Book Activity

When your child clicks on the task, the document will open. All documents save automatically and your child's teacher will be able to identify their work.

It's possible to open more than one document at a time, moving between activities using the tabs in the task bar at the top of the page.

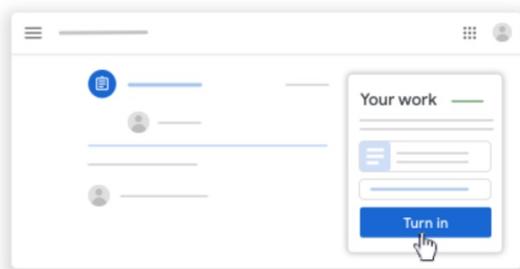

Your child can upload files to send to their teacher. Please scan the QR code with your camera to find out how to do this.

Your child will be able to select any of the tasks they have been assigned.

3. To open the document, under **Your work**, click the thumbnail.
4. Work on your document.
5. (Optional) To turn in your work, click **Turn In** and confirm.

Once an assigned task has been completed, it can be sent to the teacher using the 'TURN IN' button.

You will find this in the top right of the document.
